SUMMARY

Associate Software Engineer with 1+ years of experience at Allure Digital, building and shipping cross-platform mobile applications with React Native and Expo. Published two apps, QuickWorX and BrothersFix, to both the Apple App Store and Google Play Store, and manage their ongoing ERP-side functionality post-launch. Currently building Allure Dispatch, an in-house dispatch management software with a companion mobile app for dispatchers, set to publish soon. Full-stack experience with React, Node.js, Express, PostgreSQL, and Redis, alongside WordPress development (Bricks Builder, Elementor).

PUBLISHED APPS

QuickWorX – [Android](#) | [iOS](#)

BrothersFix – [Android](#) | [iOS](#)

EXPERIENCE

Allure Digital

Associate Software Engineer

Aug 2025 – Present

Islamabad, Pakistan

- Developed and shipped cross-platform mobile apps QuickWorX and BrothersFix using React Native and Expo, published on both the App Store and Google Play
- Manage and maintain the ERP-side functionality behind QuickWorX and BrothersFix post-launch
- Building Allure Dispatch, an in-house dispatch management software, along with a companion mobile app for dispatchers (upcoming release)
- Built REST APIs with Node.js and Express, backed by PostgreSQL and Redis, to support mobile app features and webhook integrations
- Built and customized WordPress websites using Bricks Builder and Elementor, including custom post types, taxonomies, and query loops
